NATIONAL INFO DAYS CELEBRATED

Inclusive Health Project activities has come to an end. In order to share the intellectual outputs of the project with a wider audience, each partner organized a multiplier event in their countries (Turkey, Czechia, Latvia and Ireland).

Within the Project, an analysis report, a curriculum and a training video are produced as intellectual outputs. The analysis report is aimed to identify the knowledge, skills and capacities of health professionals on inclusive health services and to make a due diligence, a series of research activities have been carried out.

Based on the analysis report, the curriculum of inclusive health training is developed for vocational education providers and health professionals, which contains the concept of inclusive health, basic patients' rights, inclusive communication and more.

The inclusive health training video is prepared based on the training curriculum and made available to the relevant professionals in order to support the education of health professionals as a tool of in-service training.

This project has been funded with support from the European Commission. This publication is the responsibility of the project consortium. The Commission is not responsible for the use made of the information contained therein.
